

**EnthDegree™**

2018  
COLLECTION

## OUR STORY

The growing anticipation as you approach, knowing the surface of the water lies idyllic, with a glassy sheen. The powerful draw of an off-shore breeze, shaping waves into pure perfection. The thunder of rapids after a recent rain penetrating a fine mountain mist, as you prepare for a rapid descent. The rush of adrenalin as your lifetime passion morphs into all out competition.

Enth Degree is a range of Technical Performance Wear specifically designed for use in high-performance Water Sports. Tested in Australia & New Zealand's harshest environments, our garments adapt to varying weather conditions and exertion levels and regulate your core body temperature.

Wet or dry, hot or cold, the Enth Degree garments help control your core temperature longer, enhancing your performance throughout.

**TAKES YOU THERE.**

FERNOTHERM 3

> KEY PERFORMANCE

- ① Fast water run-off, quick drying and anti wind-chill.
- ② Soft touch fleece for maximum comfort.
- ③ Thermal heat retention properties keeping you warm.
- ④ Wicks cool moisture away from the body.
- ⑤ UV 50+ sun protection.

> OUTER LAYER

Performance woven Nylon Lycra with water repellent treatment facilitates ease of movement, fast water run-off, quick drying and anti wind-chill. UV 50+.

> MIDDLE LAYER

Windproof, breathable PU Membrane adhered with advanced dot lamination technique for optimum flexibility. Wicks cool moisture away from the body on the surface when dry. Traps warm water against the skin when wet. Stops surface wind-chill.

> INNER LAYER

385 g/m<sup>2</sup> soft-touch fleece, offering superior comfort against the skin, moisture wicking characteristic and thermal heat retention properties keeping you warm, either wet or dry.

Activflex

> KEY PERFORMANCE

- ① Ultimate 4-way freedom of movement.
- ② Brushed internal lining and low profile flat-lock stitching for maximum comfort.
- ③ High-level breathability avoids overheating.
- ④ UV 50+ sun protection.

> MATERIAL SPECIFICATION

240 g/m<sup>2</sup> ridge weave brushed nylon Lycra with UV 50+ treatment, provides the ultimate 4-way freedom of movement, controlled core temperature regulation and soft touch anti-chaffing.

COOLVENT

> KEY PERFORMANCE

- ① Channel flow weave achieves quick drying times.
- ② Maximizing airflow against the skin and material surfaces, keeping core temperate down.
- ③ High-level breathability avoids overheating.
- ④ UV 50+ sun protection.

> MATERIAL SPECIFICATION

185 g/m<sup>2</sup> Channel Flow weave Polyester Lycra with Water Repellent, UV treatment offering 50+ protection and extreme breathability. Channel Flow weave allow water to quickly pass through the material achieving incredibly quick drying times.

TECHNOLOGIES

Q-DRY

> KEY PERFORMANCE

- ① Touch dry within minutes after use, eliminating the discomfort of a wet wetsuit.
- ② Soft touch feel against the skin for maximum comfort.
- ③ Thermal heat retention properties keeping you warm.
- ④ Ultimate high stretch for performance and fit.

> OUTER LAYER

"Neospan" super stretch abrasion resistant nylon lining that facilitates ease of movement and ensures the external longevity of garments.

> MIDDLE LAYER

Lightweight expanded "S Foam" that is soft to touch, light to wear and offers high level stretch characteristics ensuring maximum flexibility and function during high intensity performance.

> INNER LAYER

A custom designed 200 g/m<sup>2</sup> Quickdry fleece constructed from a proprietary water repellent fibre, coupled with a strategic fast water flow pattern design, enables "dry to touch" times within 10 minutes of full saturation.

■ FERNOTHERM 3 ■ *Activflex*

The Fiord Long Sleeve Top is a garment designed with the utmost versatility in mind. Through its development, input was gathered from experts across a range of sports including Open Ocean Paddlers, White Water Rafters and SUP Surfers to name just a few. The Fiord LS's versatility comes from the precision arrangement of 385gsm Fernotherm3 and 240gsm Activflex material panels. Fiord LS will take you where ever you want to go with unrivalled comfort and functionality.

**FIORD** - Geologically, a fiord is long, narrow, deep inlet of the sea between high cliffs, as in Norway, typically formed by submergence of a glaciated valley.

**FEATURES**

- YKK AquaGuard® water repellent zipper
- Angled Comfort Neck Seal
- Integrated Utility Pocket with Headphone port
- Quick Adjust Waist System

- High-stretch Neoprene Neck
- Windproof Breathable PU Membrane
- Soft Touch brushed internal lining
- 4-Way Stretch Panels

# CIRRUS LSS

TECHNICAL TOP / FEMALE

TECHNICAL

**TECHNOLOGIES**

■ FERNOTHERM 3 ■ Activflex

Inspired by women the world over who push themselves to the limits every day, the Cirrus LSS is a Long Sleeve Spring Suit designed specifically for females and utilizes a strategic combination of 385gsm Fernotherm3 and 240gsm Activflex material. The core panels of the garment offer maximum warmth and wind-resistance, whilst the high-performance active panels of the garment, under the arms and around the thighs, have been made more flexible and breathable to allow greater freedom of movement and to avoid over-heating.

**CIRRUS** - Cloud forming wispy filamentous tufted streaks or 'mare's tails' at high altitude (usually 5 to 13 km, 16,500 to 45,000 ft)

**FEATURES**

**TECHNICAL FEATURES**

- Water repellent outer treatment
- Windproof breathable PU membrane
- Soft-touch moisture wicking fleece
- 4-Way stretch panels
- Soft touch brushed internal lining
- UV 50+ sun protection

# KENETIC 3/2 LSS

WETSUIT / MALE

TECHNOLOGIES

Q-DRY

The first in our new series of Zipperless suit designs, the Kenetic is the ultimate combination of form, fit, flexibility and function. The Zipperless design provides the ultimate freedom of movement during high intensity activity. A custom 200gsm Quick Dry water repellent fibre in critical areas of the suit aids in the quick dry process and ensures you are putting on a 'dry' suit every time. Couple this with the highest stretch neoprene available, GBS seams and compressed edge wrist and leg seals to reduce water entry, and the Kenetic will not let you down wherever you choose to take it.

KENETIC NAVY

KENETIC RED

**KENETIC** - Used generally, kinetic can simply mean "dynamic" or "lively". In physics, the kinetic energy of an object is the energy that it possesses due to its motion.

FEATURES

TECHNICAL FEATURES

- 3/2mm high stretch neoprene
- Glued & blind stitched (GBS) seams
- Internal seam tape in critical stress areas
- Custom 200gsm Q-Dry lining technology

DESIGN FEATURES

- Zipperless entry design
- Compressed edge wrist and leg seals
- Water drainage design at front and rear
- Smooth skin neck seal

WETSUITS

# ALTUM 3/2 LSS

WETSUIT / FEMALE

TECHNOLOGIES

Q-DRY

Built to form perfectly to the female body, the Altum 3/2's combination of style, functionality and supreme comfort make this suit stand out from the crowd. Front zip closure is easy to get on and gives a complete sense of unrestricted freedom of movement during use. Strategically positioned 200gsm custom Quick Dry panels eliminate the uncomfortable task of donning a wet wetsuit. Unique quick dry water repellent fibre aids in the quick dry process and ensures you are putting on a 'dry' suit every time. Add this to the compressed edge wrist and legs seals and smooth-skin neck seal and you will be warm and toasty on the coldest of days.

**ALTUM** - The deep, the sea in Latin. The deeper parts of the ocean, especially those beyond the edge of the continental shelf.

FEATURES

TECHNICAL FEATURES

- 3/2mm high stretch neoprene
- Glued & blind stitched (GBS) seams
- Internal seam tape in critical stress areas
- Custom 200gsm Q-Dry lining technology

DESIGN FEATURES

- YKK chest zip closure design
- Anatomical female cut
- Compressed edge wrist and leg seals
- Water drainage design at front and rear
- Smooth-skin neck seal

# TUNDRA LS

TOP / MALE

TECHNOLOGIES

■ FERNOTHERM 3

The Tundra in its development has been taken through its paces by test pilots across a range of sports; resulting in the best piece of multi-sport gear perfect for applications such as Kayak clothing, SUP clothing, Kite Surfing tops and Dive Wetsuits. The Tundra's performance comes from its material and design. The anti-wind chill of the 385gsm Fernotherm3, makes it perfect for above water sports and soft touch internal lining beats all competitors when worn below the water. Form cut performance design and the unique 'silver back' aesthetics encapsulate the high tech performance capabilities of this unique top.

**TUNDRA** - A vast, flat, treeless Arctic region of Europe, Asia, and North America in which the subsoil is permanently frozen.

FEATURES

TECHNICAL FEATURES

- Water repellent outer treatment
- Windproof breathable PU membrane
- Soft-touch moisture wicking fleece
- 4-Way stretch panels
- High-stretch neoprene neck
- UV 50+ sun protection

DESIGN FEATURES

- Quick adjust waist system
- Board short connection loop
- Hi-vis reflective print and silver back design
- Neoprene comfort neck seal
- Re-usable dry bag packaging
- Male specific high- performance cuts

TOPS & LAYERING

# ASSANA LSS

SUIT / FEMALE

TECHNOLOGIES

■ FERNOTHERM 3

The Assana with its sleek feminine lines was brought to life by a demand for new innovation in womens SUP clothing and watersports wear. Designed to be used stand alone or coupled with a pant or short, the Assana forms part of Enth Degree's Fernotherm3 Series of women's active wear purpose built for water sports. The anti-wind chill of the 385gsm Fernotherm3, makes it perfect for above water sports and the internal membrane traps water against the body when worn below the water keeping users warmer for longer, similar in its thermal properties to a 2mm Neoprene.

**ASSANA** - A cascade of water falling from a height, formed when a river or stream flows over a precipice or steep incline in Irish.

FEATURES

TECHNICAL FEATURES

- Water repellent outer treatment
- Windproof breathable PU membrane
- Soft-touch moisture wicking fleece
- 4-Way stretch panels
- High-stretch neoprene neck
- UV 50+ sun protection

DESIGN FEATURES

- YKK front adjustment zipper
- Female specific performance cut panels
- Hi-vis reflective print
- Open-cut neoprene comfort neck
- Re-usable dry bag packaging

**TOPS & LAYERING**

# MERIDIAN V

VEST / MALE & FEMALE

**TECHNOLOGIES**

**FERNOTHERM 3**

Equally as effective as a layered undergarment, or used stand alone, the Meridian Vest keeps your core warmer for longer. Designed using Enth Degrees 385gsm Fernotherm3 material, the Meridian is designed to offer you thermal protection where it matters most, whilst not effecting freedom of movement in any way. Neat features like the hidden Utility Pocket, Quick-adjust waist system and board short connection loop provide functionality and flexibility along with thermal performance.

MERIDIAN MALE

MERIDIAN FEMALE

MERIDIAN - A circle of constant longitude passing through a given place on the earth's surface and the terrestrial poles.

**FEATURES**

**TECHNICAL FEATURES**

- Water repellent outer treatment
- Windproof breathable PU membrane
- Soft-touch moisture wicking fleece
- 4-Way stretch panels
- Nylon lycra edge trim
- UV 50+ sun protection

**DESIGN FEATURES**

- Hidden utility pocket
- Quick adjust waist system
- Board short connection loop
- Hi-vis reflective print
- Re-usable dry bag packaging
- Male and female specific cuts

**TOPS & LAYERING**

# ATOLL HV

HOODED VEST / MALE & FEMALE

**TECHNOLOGIES**

**FERNOTHERM 3**

Given that 25% of heat loss occurs through the head, we developed the Atoll HV as the ultimate hood and vest combination giving maximum warmth whilst still maintaining comfort and flexibility. Designed to be used as a stand-alone garment in water sports or equally as effective when layered under a wetsuit, the Atoll HV has you covered. Forming part of the Fernotherm3 Series the Atoll HV is perfectly suited to watersports such as Scuba Diving, and Snorkeling where full submersion in water is the order of the day. The integrated Neoprene face seal acts as the ultimate wind and water stopper.

ATOLL MALE

ATOLL FEMALE

ATOLL - A ring-shaped coral reef or a string of closely spaced small coral islands, enclosing or nearly enclosing a shallow lagoon.

**FEATURES**

**TECHNICAL FEATURES**

- Water repellent outer treatment
- Windproof breathable PU membrane
- Soft-touch moisture wicking fleece
- Nylon lycra edge trim
- High-stretch neoprene face seal
- UV 50+ sun protection

**DESIGN FEATURES**

- Quick adjust waist system
- Integrated hood
- Hi-vis reflective print
- Form cut freedom paneling
- Re-usable dry bag packaging

**TOPS & LAYERING**

**NEKTON HLS**

HOODED TOP / MALE & FEMALE

**TECHNOLOGIES**

**■ FERNOTHERM 3**

The Nekton HLS takes you to extreme environs with the added warmth and comfort of long sleeves. Designed to be used as an undergarment or stand alone, the Nekton is the ideal garment when retaining heat during watersports is critical. With a back zipper entry maintaining a sleek design and no cumbersome zip to get in your way, the Nekton is easy to slip on and off. Featuring Fernotherm3 for anti-wind chill properties, soft touch internal lining for warmth, and integrated Neoprene face seal the Nekton is the ultimate in wind and water protection.

NEKTON MALE

NEKTON FEMALE

**NEKTON** - A nekton is a group of water or marine organisms that travel together freely. They tend to move without the help of the current.

**FEATURES**

**TECHNICAL FEATURES**

- Water repellent outer treatment
- Windproof breathable PU membrane
- Soft-tough moisture wicking fleece
- Nylon lycra edge trim
- Hi-stretch neoprene face seal
- UV 50+ sun protection

**DESIGN FEATURES**

- Back zip entry point
- Integrated hood
- Hi-vis reflective print
- Form cut freedom paneling
- YKK waterproof zipper with streamline invisible teething

**TOPS & LAYERING**

**BARRIER FS**

FULL SUIT / MALE & FEMALE

**TECHNOLOGIES**

**■ FERNOTHERM 3**

The Barrier Full Suit provides full body exposure protection with the ease of a back-zipper entry. Wear as a stand-alone full body exposure suit for SUP, Surf, kite surfing or diving, or layer under a standard neoprene wetsuit in the cooler months. Offering a unique four-way stretch, seals at the neck, ankle and wrist areas, this suit is designed with comfort and stretch in mind. With the 385gsm Fernotherm3 outer layer offering anti-wind chill properties, and the soft touch internal lining proving warmth and comfort, the Barrier full suit is the ultimate in exposure and thermal protection.

BARRIER MALE

BARRIER FEMALE

**BARRIER** - A long, narrow ridge of coral that runs parallel to the mainland and is separated from it by a channel of deep water.

**FEATURES**

**TECHNICAL FEATURES**

- Water repellent outer treatment
- Windproof breathable PU membrane
- Soft-touch moisture wicking fleece
- UV 50+ sun protection
- High stretch neoprene wrists and ankles seals

**DESIGN FEATURES**

- Contoured collar with velcro adjustment
- Industry leading PK zipper
- Rubber tab at base of zipper for easy grip
- 3D-Gel applied to knee area for abrasion protection
- Male and female specific cuts

LIGHTWEIGHT

# BOMBORA LS

TOP / MALE & FEMALE

LIGHTWEIGHT

## TECHNOLOGIES

■ **Activflex**

Carefully designed with high-intensity watersports in mind the Bombora LS utilizes the unique 240gsm Activflex material. The design focus ensures the garment conforms to the body, whilst still maintaining an unrestricted range of movement. The breathable nature of the Activflex avoids overheating, whilst the brushed internal lining provides superior softness and anti-chaffing characteristics against the skin. Low profile flat-lock joining of the ergonomically designed active panels keeps the garment firmly in place through all levels of intense activity.

BOMBORA MALE

BOMBORA FEMALE

**BOMBORA** - A wave which forms over a submerged offshore reef or rock, sometimes breaking heavily and producing a dangerous stretch of broken water.

## FEATURES

## TECHNICAL FEATURES

- 4-Way stretch panels
- Soft touch brushed internal lining
- Breathable weave
- High warmth to weigh ratio
- UV 50+ sun protection

## DESIGN FEATURES

- Reinforced thumb loops
- Integrated Utility Pocket
- Performance cut panels
- Double rolled comfort neck
- Re-usable dry bag packaging
- Male and female specific cuts

# GLACIER HLS

HOODED TOP / UNISEX

LIGHTWEIGHT

## TECHNOLOGIES

■ **COOLVENT**

The Glacier Hooded Long Sleeve Garment is a unique combination of design and material functionality that offers 50+ UV sun protection whilst maintaining airflow against the skin during activity keeping the core temperature controlled. The full body front zip allow for fast donning and doffing should variations in weather and activity level occur during use. Wrist thumb loops keep sleeves in place and an easily accessible rear zippered pocket make the Glacier one of the most, multi-functional watersports garments on the market.

**GLACIER** - A slowly moving mass or river of ice formed by the accumulation and compaction of snow on mountains or near the poles.

## FEATURES

## TECHNICAL FEATURES

- Quickdry channel flow weave
- Water repellent outer treatment
- UV 50+ sun protection

## DESIGN FEATURES

- Lightweight YKK front zipper
- Sun protection hood
- Reinforced thumb loops
- Rear zippered pocket
- Hi-vis reflective print
- Re-usable dry bag packaging
- Unisex panel designs

TOP: FIORD LS MALE

## PANTS

## AVEIRO

PANTS & SHORTS / UNISEX

### TECHNOLOGIES

#### ■ FERNOTHERM 3

The Aveiro Pants bring a new level of comfort to thermal protection of the lower body. The Core panels of the garments utilizes Enth Degrees 385gsm Fernotherm3 material, offering supreme comfort, flexibility and water resistance, whilst maintaining breathability to avoid overheating. A hidden utility pocket, non-slip neoprene waistband both add to the uniqueness of this multi-use garment. The Midriff design of the Aveiro Short eliminates any issues caused by Ride-up, during high intensity activity.

**AVEIRO** - The Aveiro lagoon (Ria de Aveiro) is a lagoon in Portugal. This 45-kilometer-long lagoon stands as one of Europe's last remaining untouched coastal marshland.

## ACCESSORIES

### F3 HOOD

HOOD / UNISEX

#### TECHNOLOGIES

■ FERNOTHERM 3

The F3 Hood makes use of Fernotherm3 technology using soft-touch fleece which offers superior comfort against the skin, moisture wicking characteristic and thermal heat retention properties. These factors combine to keep your head warm whether you're wet or dry. The F3 Hood works as a stand alone hood, yet is also designed to be layered underneath another neoprene hood for an unbeatable level of protection.

#### FEATURES

- Counteract heat loss from the head
- Windproof breathable PU membrane
- Water repellent outer treatment
- Neoprene face seal
- Lycra binding finish
- 4-way Stretch
- Re-usable dry bag packaging
- UV 50+ sun protection

### F3 SOCKS

SOCKS / UNISEX

#### TECHNOLOGIES

■ FERNOTHERM 3

Once you've experienced the performance of the F3 Socks with grey neoprene ankle seals you'll be hooked. Constructed from Fernotherm3 for superior warmth characteristics these socks will keep your feet snug and lock in warmth.

#### FEATURES

- Keeps feet warm in both above and below water situations
- Windproof breathable PU membrane
- Water repellent outer treatment
- Neoprene ankle seal
- 4-way Stretch
- Re-usable dry bag packaging
- UV 50+ sun protection

## F3 GLOVES

GLOVES / UNISEX

### TECHNOLOGIES

■ FERNOTHERM 3

The ultimate combination of flexibility, warmth and comfort in a lightweight package. The advanced thermal properties of all ED garments are immediately distinguishable in these Fernotherm3 gloves, coupled with the familiar four way stretch which gives your fingers the freedom they need to perform the finer adjustments that are demanded in high level watersports.

### FEATURES

- Water repellent outer treatment
- Windproof breathable PU membrane
- Soft-touch moisture wicking fleece
- Neoprene wrist seal
- 4-way Stretch
- Re-usable dry bag packaging
- UV 50+ sun protection

## QD GLOVES

GLOVES / UNISEX

### TECHNOLOGIES

■ Q-DRY

The ultimate combination of warmth, flexibility and comfort. Featuring the same super high stretch neoprene and custom 200gsm Quick Dry lining found in the Kenetic and Altum wetsuit series, the QD Glove provides advanced thermal properties for any situation. The high stretch 2mm neoprene provides the flexibility your hands need to perform the finer adjustments that are demanded in high level watersports.

### FEATURES

- Glue coated lining in palms
- 2mm high-stretch neoprene
- Custom 200gsm Q-Dry lining technology
- Neoprene wrist seal
- High-vis reflective print
- Re-usable dry bag packaging

## QD BOOTS

BOOTS / UNISEX

### TECHNOLOGIES

■ Q-DRY

Fully lined with a custom 200gsm Quick Dry fleece lining, the QD Enth Degree boots are designed for warmth and comfort and will ensure you are putting on a 'dry' boot every time. Made from high stretch neoprene, they are incredibly easy to slip on and off, and so comfortable and flexible there's no need for an annoying, uncomfortable, leaky zipper. The angled ankle sits at a position that is natural to any active water sports enthusiast. Featuring an innovative cone seal around the top to prevent water ingress, the QD boot also comes with a free pair of Enth Degree branded boot liners.

### FEATURES

- Custom 200gsm Q-Dry lining technology
- Angled ankle design for flexibility and comfort
- Parabolic cone cuff zipless entry design
- Smooth Skin seal at cone cuff entry
- Non-Slip semi rigid sole
- Fin stopper on heel
